## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1, 3-8, 10-15, and 17-20 are allowed.
2. The following is an examiner's statement of reasons for allowance: the examiner agrees with the applicant that the claims are novel and non-obvious.
3. The independent claims are drawn to the environment of advanced file and resource sharing. In particular, the claims are drawn to a mobile device that contains resources that another device on a network environment desires, set up so that a device on a first network may access the resource, but a device on a second network may not. The mobile device, as opposed to an outside server, performs the identification, based on the devices network ID, user name, and password. The combination is novel and non-obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. They regard further background teachings on the file and resource sharing environment, and on network authentication.
